## The 2017 Field Trial Overview

Field Trials are a time-honoured sport, though they require good ground and good access roads. As such the generosity of landowners and their keeping staff is acknowledged and very much appreciated. And indeed it is these same grounds that allows the clubs to gain significant interest from the Field Trial community.

These same trials are expensive to run and the ISAE-SP field trials could not be run without the generous financial support as received from both parent clubs. Additionally we are extremely grateful to the continued sponsorship of Red Mills of Ireland as their support eases pressure on the finances as well as enhancing award ceremonies.

And the clubs are extremely grateful to the judges who sacrificed family/business/sporting time in undertaking the judging appointments during 2017.

## Spring Circuit

The spring trials were once again held on the estates of Mugglewick & East Allenheads by kind permission of Jeremy Herrmann. Judges for the two days of spring field trials were Dominic Goutorbe and Dave Amsden.

Weather conditions over the two days were wintry, with conditions on Day-2 bringing about cancellation of the trial.
